

PROJECT PROPOSAL REQUEST Project Name: ImmFlow **Website:** myimmflow.com
Type: Immigration Attorney Marketplace Platform

ABOUT IMMFLOW

ImmFlow is a two-sided marketplace platform exclusively for immigration attorneys in the United States. The platform serves two main audiences:

1. **The public** — individuals and businesses looking for verified immigration attorneys for their cases
2. **Attorneys** — immigration lawyers connecting with each other for hearing coverage, case outsourcing, co-counsel arrangements, referrals, and job opportunities

The platform is already live at myimmflow.com with a working frontend, real user signups, and Stripe payments integrated. We are now looking for a developer to build out the full backend, database functionality, and admin tools.

CURRENT STATE OF THE PLATFORM

The following is already built and live:

- Full frontend with 6 pages — Home, Find Attorneys, Job Board, Attorney Network, AI Matcher, Post a Listing
- User authentication — attorneys can sign up and log in via Supabase
- Stripe payment integration — \$29/month Pro plan
- Live domain — myimmflow.com hosted on Netlify
- AI matcher flow — frontend demo of the matching experience
- Responsive design — works on desktop and mobile

Current tech stack:

- Frontend: HTML, CSS, JavaScript (to be migrated to React)
- Authentication & Database: Supabase
- Payments: Stripe
- Hosting: Netlify
- Domain: Namecheap (myimmflow.com)

WHAT WE NEED BUILT

Phase 1 — Foundation (Weeks 1–2)

1. Migrate the current HTML/CSS/JS frontend to a proper React application stored on GitHub
2. Set up Supabase database tables for attorneys, listings, applications, and messages
3. Connect all frontend pages to real Supabase data
4. Set up proper authentication flow — signup, login, email verification, password reset
5. Deploy to Netlify with continuous deployment from GitHub

Phase 2 — Core Features (Weeks 3–4)

6. **Attorney profiles** — each attorney gets a public profile page with:
 - Photo upload
 - Bio and practice description
 - Bar number and state bar verification badge
 - Specialties and visa categories
 - Languages spoken
 - Availability calendar
 - Hourly rate or flat fee
 - Reviews and ratings from other attorneys
 - Contact button
7. **Real listings** — fully functional job board where attorneys can:
 - Post hearing coverage requests, outsource projects, full-time jobs, and of counsel arrangements
 - Set compensation, location, case type, and language requirements
 - Receive and manage applications
 - Mark listings as filled or closed
8. **Search and filters** — working search connected to real Supabase database:
 - Filter by location, case type, language, availability, and rate
 - Natural language search
 - Sort by rating, availability, and relevance
9. **Application system** — attorneys can apply to listings, and posting attorneys can review and accept applicants

Phase 3 — Growth Features (Weeks 5–6)

10. **Direct messaging** — secure in-platform messaging between attorneys
11. **Stripe subscriptions** — fully working billing system:
 - Free tier with limited features
 - Pro tier at \$29/month with unlimited listings, AI matcher, and messaging
 - Promo code support — IMMFLOW2026 for 3 months free
 - Billing dashboard for users to manage their subscription
12. **Admin dashboard** — a private backend panel for the ImmFlow owner to:
 - View and manage all attorney profiles
 - Approve or reject new signups
 - Manage and moderate listings
 - View subscriber and payment data
 - Send announcements or emails to users
 - View platform analytics — signups, listings, revenue
13. **AI matcher integration** — connect the AI matcher to real attorney data
14. **Email notifications** — automated emails for new applications, messages, and subscription reminders

WHAT I WILL PROVIDE

Supabase (Database & Auth)

- Project URL: <https://ghdyntpgzgzkhr0lshcj.supabase.co>

- Anon Key:
eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJpc3MiOiJzdXBhYmFzZSIsInJlZiI6ImdoZGludHBnemd6a2hyb2xzaGNqIiwicm9sZSI6ImFub24iLCJpYXQiOi0jE3Nzg5MTg4MzIsImV4cCI6MjA5NDQ5NDgzMn0.F6VVH0LRsbGNjfpLEixEqEw-NNhUrQxlr6Mwbgm-w6g
- Full admin access will be granted via team invite

Stripe (Payments)

- Sandbox payment link:
https://buy.stripe.com/test_eVq6oz8mJbIi5Lh8z9aVa00
- Product: ImmFlow Pro — \$29/month
- Full access will be granted via team invite

Netlify (Hosting)

- Live site: myimmflow.netlify.app
- Full access will be granted via team invite

Namecheap (Domain)

- Domain: myimmflow.com
- Full access will be granted via account sharing

GitHub

- Full access will be granted via collaborator invite

Current website code

- Full HTML/CSS/JS source code will be provided

Design mockups

- Full visual design references and mockups will be provided

Content

- All final copy, attorney data, and listing content will be provided

PROJECT REQUIREMENTS

- Strong experience with React and JavaScript
- Experience with Supabase or similar backend-as-a-service
- Experience with Stripe subscriptions
- Available for regular check-ins via WhatsApp or email
- Clean, well-commented code delivered on GitHub
- Ability to work within agreed timeline
